

Regarding Executive Order GA-34:

As an organization closely aligned with and operating from a facility owned by the Matagorda County Hospital District, MMG will continue requiring health screens and the proper wearing of face masks in order to enter this facility.

On March 10, 2021, Gov. Greg Abbott's Executive Order GA-34 will lift the mask mandate for Texas. This same order rightfully acknowledges the continued threat of COVID-19 in the State of Texas, recommends the wearing of face coverings when physical distance cannot be maintained between yourself and someone not in your household, and allows for additional COVID-19 mitigation strategies in areas that are experiencing a high number of hospitalizations.

Due to the inherent nature of our clinic where those who are ill or think they may be ill with COVID-19 are encouraged to seek testing and other medical care, all MMG clinics will continue our current COVID-19 precautions even after Executive Order GA-34 is implemented.

In order to promote and protect the wellbeing of our frontline healthcare workers, all patients, visitors, employees, and vendors who enter this facility will still be required to wear a face mask and pass a basic health screening.

If you'd like to read Gov. Abbott's Executive Order GA-34, you can find it here:
